

RADIAN WEAPONS® | PRODUCT GUIDE 2023

A grayscale photograph of a person in a field holding a rifle, with hills in the background. The person is on the right side of the frame, facing right, holding a rifle with both hands. The field is filled with tall grass, and there are hills in the background under a clear sky.

A MESSAGE TO OUR CUSTOMERS

Thank you for your continued support into 2023! As we continue to develop and deliver firearms products for the market in the new year, we want to say thank you for your business and support. In a market with near countless choices we understand that customer loyalty must be earned through a combination of quality, innovation, and service. All Radian products come with a Lifetime Warranty against manufacturer defects, even if you're not the original owner. Shoot with confidence – we'll be here if you need us.

Thank you again.
Sincerely,

A handwritten signature in white ink that reads "Joshua Underwood". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.

THE PISTOL EVOLVED™

INTRODUCING

AFTERBURNER™ + RAMJET™

The Radian® AFTERBURNER™ + RAMJET™ provide unprecedented recoil reduction and match grade accuracy in a concealed carry package. The threadless barrel design allows for effortless install/removal for cleaning, while LEGAL FOR SALE IN ALL 50 STATES.

At only .47" long, the AFTERBURNER only increases the overall length of the slide to a G17® allowing compatibility with all G17® holsters.

The INTRA-LOK® mounting system uses the taper lock principle; a tapered locking screw interfaces with an angled V-groove on the underside of the barrel. This perfectly times the compensator as it locks down onto the upper barrel profile on the muzzle end of the barrel.

INTRA-LOK® allows the user to simply slide the compensator over the barrel, insert and tighten the locking screw, making for a simple and repeatable installation process. This system allows the user to easily remove the barrel from the slide for cleaning.

The RADIAN AFTERBURNER + RAMJET have set a new standard in firearms engineering and performance.

AFTERBURNER™ + RAMJET™ COMBO

AFTERBURNER™ MICRO-COMPENSATOR

The AFTERBURNER™ compensator and is machined from hardened 17- 4 SS and is enhanced with a DLC (Diamond-Like Carbon) coating. This combination achieves low friction, high hardness, and high corrosion resistance, making overall durability and port erosion from muzzle blast a non-issue.

PRODUCT FEATURES

- 44% recoil reduction in combination with RAMJET (115g ammunition)
- Hardened 17-4 stainless steel
- Taper-lock screw interface; no Loctite, shims, or setscrews needed
- Angled front faces aid in holstering
- Black DLC coating
- No threads, legal for sale in all 50 states
- Makes length of Glock™ G19™ into G17® length, fitting all G17™ holsters

RAMJET™ PORTED PISTOL BARREL

The Radian® RAMJET is a match-grade pistol barrel that delivers an accurate and reliable weapon system. The fluted barrel features a gas sealing chamber as well as a loaded chamber indicator.

The RAMJET™ is machined from hardened 416R SS and is enhanced with a DLC (Diamond-Like Carbon) coating. This combination achieves low friction, high hardness, and high corrosion resistance, making overall durability and port erosion from muzzle blast a non-issue.

PRODUCT FEATURES

- Hardened 416R stainless steel
- Match grade barrel
- Gas sealing chamber
- Loaded chamber indicator
- Black DLC coating
- No threads, legal for sale in all 50 states
- Makes length of Glock™ G19™ into G17® length, fitting all G17® holsters

ONE SIZE FITS GEN3®, GEN4®, & GEN5®

PISTOL PARTS & ACCESSORIES

COMPRESSOR™ QUICK-TUNE™
GUIDE ROD ASSEMBLY

Most adjustable guide rods on the market use a cap screw to retain the spring. The problem? Loose screws are too common and thread locker forces you to commit to one spring weight.

Enter the screwless design of the Radian® COMPRESSOR™ Quick-Tune™ Guide Rod. The dovetail interface is captured by the spring, creating a simple and secure lock-up. Flutes along the guide rod allow the spring to move with less friction for smoother cycling. The heat treated guide rod has a slick, durable, and corrosion-resistant Nitride finish.

SPECIFICATIONS

- Screwless Design
- Compatible with GLOCK® G19™ GEN1-5®, G19X™, and G45™
- 13, 15, 18LB Springs included

ONE SIZE FITS GLOCK® G19™ GEN1-5®, G19X™, AND G45™

GUARDIAN™ OPTIC GUARD
MOUNT WITH STUD-LOK INTERFACE + TRU-SEAL™

The Radian GUARDIAN Optic Mounting System provides unprecedented protection for your pistol red dot optic. Machined from 7075 aluminum & hard anodized, the design provides top/front/side impact protection. Optional back-up sights, provide an unobstructed, irons forward sight picture.

Our STUD-LOK™ threaded stud/nut mounting interface is the most secure system on the market. This provides much longer thread engagement, greater hold down power, with increased shear resistance.

TRU-SEAL™ eliminates the need for an added sealing plate. Pre-installed O-rings on the mounting screws hold the plate watertight to the slide, sealing out moisture, eliminating corrosion in the mounting threads.

FITS GLOCK® MOS™ + TRIJICON® RMR®, GLOCK® MOS™ + HOLOSUN EPS, WALTHER® PDP 2.0 OPTIC CUT + TRIJICON® RMR®, WALTHER® PDP 2.0 OPTIC CUT + HOLOSUN EPS

THE RIFLE EVOLVED™

RADIAN® MODEL 1™

ABOUT

The design philosophy behind the Radian® Model 1™ is simple: use the highest quality raw materials, most precise CNC machining equipment, and best components available to create a weapon that seamlessly blends form and function. Beyond quality and aesthetics, the Model 1 features fully ambidextrous controls, adding much-needed utility for both left and right handed shooters. Every Model 1 is assembled by hand, one at a time, by a trained gunsmith who inspects, test fires, and cleans the weapon to personally guarantee it meets the most rigid quality standards. No detail has gone overlooked, which is why the Model 1, like every Radian product, is guaranteed for life.

MODEL 1™ BILLET UPPER & M-LOK® HAND GUARD

ABOUT

The Radian Model 1 Upper Receiver and Hand Guard are precision CNC machined as a matching set, structurally reinforced in critical areas for improved strength and rigidity. The upper receiver is cut from billet 7075-T6 aluminum and assembled with dust cover, hand guard anti-rotation pin, light weight forward assist, and Raptor-SD Ambidextrous Charging Handle. The hand guard features Magpul® M-LOK® accessory mounting slots that attach to the barrel nut using four steel cross bolts treated in black nitride for corrosion resistance. Every surface has been smoothed over and blended to ensure no uncomfortable, sharp edges can be found. The upper and hand guard are then sprayed with Radian Cerakote options for a perfectly matching finish.

INCLUDES

- 1 X Billet Upper Receiver w/ Dust Cover, Light Weight Forward Assist, & Hand Guard Anti-Rotation Pin
- 1 X Radian® Raptor-SD™ Ambidextrous Charging Handle
- 1 X Hand Guard w/ Magpul M-LOK Modular Attachment Interface
- 1 X 7075-T6 Aluminum Barrel Nut
- 1 X Barrel Nut Wrench
- 4 X Hand Guard Cross Bolts, Washers & Nuts

ADAC-15™ LOWER RECEIVER

Machined from billet 7075-T6 aluminum, the ADAC-15 is a fully ambidextrous lower receiver for AR15-style firearms. In addition to the Talon Ambidextrous Safety Selector, left-side magazine release, and right-side bolt release, the ADAC-15 features the patented A-DAC (Ambidextrous Dual Action Catch), which allows right-handed shooters to easily lock the bolt to the rear without taking their hand off fire control. To hold the bolt back using the A-DAC, simply pull the charging handle to the rear, depress the right-side magazine release button, then release the charging handle.

PRODUCT FEATURES

Billet machined 7075-T6 aluminum construction w/ integral trigger guard and flared magazine well

SART (Self-Adjusting Receiver Tensioner) spring-loaded plunger to reduce upper/lower wobble

Radian® Talon™ 45°/90° Ambidextrous Safety Selectors (long/short)

Enhanced Takedown Pin Set

All proprietary hardware included (extended bolt catch, left-side magazine release paddle, right-side magazine release button, right-side bolt release paddle, anti rotation hammer pin)

PARTS & ACCESSORIES

RAPTOR™ CHARGING HANDLES

RAPTOR™ AMBI CHARGING HANDLE
AR15/M16

For nearly a decade, the patented Raptor has been continuously refined into what is now the gold standard for ambidextrous charging handles. Its robust construction allows rapid palm "blading" or finger-thumb charging of the weapon, ensuring the motion is fluid and fast from either strong or support side. Made in the USA from aircraft grade 7075 aluminum and milspec anodized.

RAPTOR-LT™ AMBI CHARGING HANDLES

Utilizing the same patented ambidextrous functionality as its predecessor, the Raptor-LT handles are machined from 7075 aluminum, MILSPEC Type III hard anodized, then over-molded with high-strength, fiberglass reinforced polymer for the ultimate combination of strength, weight, and durability. The Raptor-LT is available in black, flat dark earth, and stealth grey, all designed to match standard Magpul® color offerings. Like all Radian products, the Raptor-LT comes with a limited lifetime warranty, and is 100% designed and manufactured in the USA.

COMPATIBILITY

The Raptor-LT is compatible with most AR15/M16-pattern rifles or AR10/25 pattern rifles. Options for Sig® MPX™ or MCX™ are available as standalone products. For more detailed compatibility information, please visit radianweapons.com

TALON™ SAFETY SELECTORS

ABOUT

The patented Talon ambidextrous safety selector is a modular design that can be installed as a standard 90° or as a 45° short throw by simply rotating the shaft 180° inside the lower receiver. Selector levers install using a precision machined dovetail interface with spring-loaded retention stud to lock the lever in place – no screws to come loose or break.

FEATURES

- Compatible with Semi-Auto AR15 & AR10/SR25 Rifles and Sig Sauer® MPX™/MCX™
- Levers Machined from Billet Aircraft Grade Aluminum
- MIL-SPEC Type III Hard Coat Anodized Finish or Cerakote
- Center Shaft Machined from Hardened Steel w/ Black Nitride Finish
- Selector Detent, Detent Spring, and Mounting Hardware Included

AVAILABLE COLORS*

-  RADIAN BLACK
-  RADIAN GREY
-  FLAT DARK EARTH
-  RADIAN OD GREEN

VERTEX™ & VERTEX-FB™ SINGLE STAGE TRIGGER

The Radian Vertex & Vertex-FB Trigger were conceived with functional ergonomics at the center of the design philosophy. The trigger bow is positioned forward of the traditional bow location, enhancing the shooter's ability to make a straight-back trigger break, and reducing potential for "left and down" or "right and down" trigger pull.

The single stage Vertex & Vertex-FB Trigger feature a crisp, 3.5-4 pound break and short reset. The Vertex Trigger's bow is constructed from 1144 carbon steel, and the hammer from precision machined S7 shock resistant tool steel. The hammer is then wire-EDM finished in the interface areas. The components are captured in a lightweight aluminum housing. The Vertex Trigger is compatible with the AR15 platform, its design prevents pin walkout even when using standard hammer and trigger pins.
