The design philosophy behind the Radian Model 1 is simple: use the highest quality raw materials, most precise CNC machining equipment, and best components available to create a weapon that seamlessly blends form and function. Beyond quality and aesthetics, the Model 1 features fully ambidextrous controls, adding much-needed utility for both left and right handed shooters. Every Model 1 is assembled by hand, one at a time, by a trained gunsmith who inspects, test fires, and cleans the weapon to personally guarantee it meets the most rigid quality standards. No detail has gone overlooked, which is why the Model 1, like every Radian product, is guaranteed for life.

▷ UPPER & HAND GUARD SET

THE RADIAN MODEL 1 UPPER & M-LOK® HAND GUARD

The Radian Model 1 Upper Receiver and Hand Guard are precision CNC machined as a matching set, structurally reinforced in critical areas for improved strength and rigidity. The upper receiver is cut from billet 7075-T6 aluminum and assembled with dust cover, hand guard anti-rotation pin, light weight forward assist, and Raptor-SD Ambidextrous Charging Handle. The hand guard features Magpul® M-LOK® accessory mounting slots that attach to the barrel nut using four steel cross bolts treated in black nitride for corrosion resistance. Every surface has been smoothed over and blended to ensure no uncomfortable, sharp edges can be found. The upper and hand guard are Type III MILSPEC hard anodized for durability, then sprayed with Radian Black Cerakote for a perfectly matching deep black finish.

The Radian Model 1 Upper Receiver and Hand Guard includes:

- 1 X Billet Upper Receiver w/ Dust Cover, Light Weight Forward Assist, & Hand Guard Anti-Rotation Pin
- 1 X Raptor-SD Ambidextrous Charging Handle
- 1 X Hand Guard w/ Magpul M-LOK Modular Attachment Interface
- 1 X 7075-T6 Aluminum Barrel Nut
- 1 X Barrel Nut Wrench
- 4 X Hand Guard Cross Bolts, Washers & Nuts

▷ AX556 LOWER RECEIVER

Talon Modular Ambidextrous 45/90 Safety Selector

RADIAN AX556 LOWER RECEIVER

Machined from billet 7075-T6 aluminum, the AX556 is a fully ambidextrous lower receiver for AR15-style firearms. In addition to the Talon Ambidextrous Safety Selector, left-side magazine release, and right-side bolt release, the AX556 features the patented A-DAC (Ambidextrous Dual Action Catch), which allows right-handed shooters to easily lock the bolt to the rear without taking their hand off fire control. To hold the bolt back using the A-DAC, simply pull the charging handle to the rear, depress the right-side magazine release button, then release the charging handle.
